Re: 377 Petition - Patent Number 6,059,140

This letter is in reference to the petition and patent number as shown above. Please find our original statement submitted May 17, 2011 that outlines the details surrounding the payments on this patent. The 2nd maintenance fee payment that was sent to the USPTO on October 10, 2007 was for \$1,180 check #81940. A copy of the check that I kept in the file is attached. I believe that the payment may not have been received by the USPTO as the payment was sent to PA, just like the first and third payment. However, unlike with the 3rd maintenance fee that was paid on 3/29/11, I did not receive any notification of an address change nor did I receive the check back. Therefore, I had no reason to believe there was a problem with the 2nd maintenance fee payment. In fact, I was not made aware that the patent had been allowed to expire until after we mailed the third maintenance fee payment. All 3 payments were submitted to the PA address. The first check that was sent to the PA address was processed, the second check sent to the PA address does not appear to have been processed nor was it returned to us with an address correction, the third check which was also sent to the PA address was returned with an address correction and then immediately remailed to VA. Upon receipt of the third payment by the USPTO in VA, we were notified that the patent had expired. As explained previously, in researching this matter further, I found that we did not receive a notice of expiration because the address on file for the patent correspondence (unbeknownst to us) was for the original attorneys Kennedy Covington Lobdell and Hickman out of North Carolina, which were the attorneys for our competitors at the time we were awarded the rights to this patent in the settlement of a lawsuit. We were not notified of the expiration of this patent by these attorneys either.

Your help in this matter is most appreciated. As mentioned in our previous letter of May 17, 2011, this item that we have patented is an extremely important product for our business. It is quite clear based on the information supplied that the patent should be revived due to unavoidable circumstances, which are two fold. First, the patent maintenance fees were paid in a timely manner to the PA address on file in both 2007 and 2011 as evidenced by checks attached. Second, we never received an expiration notice so that we could quickly see why the patent had been slated for expiration. If we had received a notice, we would have immediately researched the situation and taken immediate action to resolve the matter. However, it did not come to our attention that the patent had expired until we submitted the third payment as scheduled. Upon receiving notice that there was a problem with this patent, we immediately began to research and respond in a timely fashion.

With my May 17, 2011 letter, I resubmitted per your instructions three separate checks, one for \$1,240 which represents the 2007 payment (current 7 ½ year fee) and a check for \$2,055 which represents the 2011 payment (11 ½ year fee) and a check for \$700 which represents the surcharge fee. With this letter, please find the petition fee of \$200 which is attached as requested in your letter dated 6/23/11. I have also attached the statement under 37 CFR 3.73 (b) as I, the assignee, has signed this petition. I have also attached the form to change the address for all future correspondence concerning this patent.

We appreciate your consideration in this matter. If there is any additional information or monies that are due, please do not hesitate to contact me. My email is renaew@customcrest.com. My phone number is (254)899-7169. I will address any concerns that you may have immediately so that we may get this matter resolved as quickly as possible.

Re: 377 Petition -- Patent Number 6,059,140

Please accept this letter as a petition to revive a patent that you recently informed us has expired. In a phone conversation with April, I was advised to send a letter of explanation & proof that we sent in our last two maintenance payments. We just recently were informed that this patent expired when we made the 11 year patent maintenance fee payment in March of 2011. Apparently, our previous payment made in 2007 was not received by USPTO. As requested, please see below for details surrounding the payments on this patent.

- A check in the amount of \$2,055 was mailed on 3/29/2011 for the 11 year maintenance fee. It was check#90953. The check was mailed to USPTO in Pittsburg, PA. It was returned to us for address change. We forwarded the check to the new address in VA. This payment was received by the USPTO office in a timely manner.
- We received a notice on April 20, 2011 that the payment was not accepted because the patent had expired on 5/9/2008. I immediately called the patent office and discussed the problem with Kieu Tran. In our discussion, she stated that USPTO did not show receiving the payment that we mailed in 2007. At that time, I faxed over all relevant data to Kieu Tran. Upon speaking with her on May 13, 2011, she informed me that I would have to contact the office of petitions.
- The 7 year maintenance fee payment was paid by check in the amount of \$1,180. The check was mailed out on 10/10/2007. It was check #81940. The check was mailed to USPTO, Po Box 371611, Pittsburg, PA 15250. A copy of the stub that I kept in my file is attached.
- We never received a notice that the patent had expired and obviously in fact believed that this patent was still in force. Upon speaking with Kieu Tran, I checked into why we would not have received an expiration notice, and found that the original patent attorneys Kennedy Covington Lobdell & Hickman out of North Carolina were still listed as the contact for this patent. They were the attorneys for our competitor. We were awarded rights to this patent in the settlement of a lawsuit. If a notice was sent to them, they never bothered to re-forward it to us. I verified with all staff involved here on our end, and can assure you that we did not receive any notice of the expiration of this patent. If we had, we would have taken prompt action!

I can assure you that we would never have knowingly let this patent expire. We made payments in 2004, 2007, and this last one in 2011. We did not know that the payment was not received in 2007. Additionally, we did not receive an expiration notice. Had we received a notice of expiration, we would have acted upon it promptly. Upon receiving our 11 year payment back and finding out that the patent had expired, we immediately got to work to find out what happened as well as how to revive the patent promptly.

This item that we have patented is an extremely important product for our business. We are in a highly competitive industry and this product is one of the leaders within our industry. It is imperative that this patent remain in force. We are willing to pay any fees associated with reviving the patent. From what I understand, you will need us to resubmit the 7½yr payment that you did not receive at the current rate of \$1,240, the 11½yr payment of \$2,055 as well as a \$700 surcharge since it has expired. If there are any other fees, just let us know and we will submit all payments promptly!

It is quite clear based on the information supplied above that the patent should be revived due to unavoidable circumstances. The unavoidable circumstances are two fold. First, we made the patent maintenance fee payments in plenty of time in both 2007 and again in 2011. Second, we never received an expiration notice so that we could quickly see why the patent had been slated for expiration. Had we received a notice, we would have researched the 2007 payment much earlier to see that it had not been applied and would have had the opportunity to resubmit another payment immediately if necessary. Included are the separate checks for the 2007 (7½yr) payment of \$1,240, the 2011 (11½yr) payment of \$2,055 that had been refunded to us by USPTO, and a check for the \$700 surcharge fee. Additionally, I will need to know what I need to do to change the correspondence address to ensure that we receive all communication in the future. Please feel free to contact me at (254)899-7169. Your consideration into this matter is greatly appreciated.
